

(U//FOUO) Geographic Information Systems (GIS) Day Slated for Nov. 18th

FROM: [REDACTED] and [REDACTED]
Geospatial Exploitation (S2L)
Run Date: 11/09/2004

(U//FOUO) Have you ever wondered what geospatial exploitation is? Do you want to hear how SIGINT is winning the war against terrorism? Would you like to know how you too can be geospatial? If you answered any of these questions, then you need to attend GIS Day!

(U//FOUO) You will...

- learn what geospatial analysis is;
- learn how GIS tools are employed here at NSA;
- discover how GIS is impacting the global war on terrorism with operational success stories from the GEOCELL;
- and find out about some of the new tools and programs coming soon to a desktop near you.

(U//FOUO) The [Geospatial Exploitation Office](#) (GEO), in coordination with the GIS Solutions Division, [Geographic Resource Center](#), [Advanced Analysis Laboratory](#), Test, Training, and Operations Facility, and the [Imagery Management Center](#), cordially invites you to **GIS Day at NSA, 18 November 2004, 8:00 - 4:00 in the Friedman auditorium**.

(U//FOUO) Registration is required. For details on registering and more information on what will be covered, see this website:
