(U//FOUO) Do you know you can make *SID today* your browser homepage? Follow the directions below and "The In **SID** e Scoop" (*SID today*) will be the first thing you see when you open your browser.

(U//FOUO) In Netscape :

- Â
- Go to the *SID today* page. Â
- Then, on your Netscape browser window click on "edit". Â
- On the drop down menu at the bottom, click on "preferences". Â
- Choose the Navigator category.
- In the "Navigator starts with" box, select "Home page"
- In the Home page box click on "Use current page" (This is why you have to be on the *SID today* page when you start.) Â
- Then OK at the bottom of the window.

(U//FOUO) Test it by closing Netscape and then restarting it. *SIDtoday* should be what you see when Netscape comes up.

(U//FOUO) Now, if you want to make getting back to *SID today* as simple as a single click, add it to you bookmarks. Then edit your bookmarks and put the *SID today* bookmark on your personal toolbar. A *SID today* block should show up in the 3rd level toolbar at the top of your browser window.

(U//FOUO) In Explorer :

- Â
- Start on the *SID today* page. Â
- Click on "Tools" Â
- On the "Tools" menu choose "Internet Options". Â
- Click the "General" tab. Â
- In the Home page area, click "use current" and then OK. Â
- Click on "Favorites" and add it to your favorites list.

(U//FOUO) As Martha would say... **Having *SID today* as your home page, it's a good thing!**
