(U) New Position in S01

FROM: Dr. Leonard T. Reinsfelder
SID/Deputy Chief of Staff for Integrated Planning (S01)
Run Date: 05/18/2005

(U//FOUO) Recently, I told you about the SID Integrated Planning Staff's (S01) new approach for communicating SID's requirements to the enabling organizations (ADET , ITD , LF & HR). As I said then, the design of this new approach clearly identifies a person in SID responsible for relaying to each of the enablers SID's needs for the future. These points of contact within SID are called SID Mission Interfaces (SMI). I have already introduced you to ▮▮▮▮▮▮▮▮, the SMI for ADET. Today, I would like to introduce you to ▮▮▮▮▮▮▮, **the SMI for Information Technology** (IT).

(U//FOUO) ▮▮▮ is an engineer from ▮▮▮▮▮▮ and also has a Master's degree from ▮▮ ▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮ He spent over a decade in the Weapons and Space arena as an analyst and a manager. ▮▮▮ also managed the BLUEGATE program in the former Technology Directorate (DT) for three years -- modernizing the networks at our field sites. During this tenure, he cultivated many excellent relationships and built a strong reputation in the IT domain. I believe his unique blend of understanding mission and information technology makes him ideal for this position.

(U//FOUO) ▮▮▮ team currently consists of two government employees, ▮▮▮▮▮▮ and ▮▮ ▮▮▮▮▮▮▮▮ plus one contractor, ▮▮▮▮▮ This outstanding team of professionals already has a distinguished record supporting SID on IT issues.

(U) Stay tuned for the announcement of additional SID Mission Interface personnel for the other enabling organizations.
