PTC Glossary

From GCWiki

IMEI	International Mobile Equipment Identity i.e. the serial number of the handset
IMINT	IMagery INTelligence
IMSI	International Mobile Subscriber Identity i.e. SIM card [Essentially the account number with the mobile phone company. Its seen when the phone attaches to the network and occasionally thereafter. The second most useful telephony selector followed by the IMEI]
INCENSER	A special source collection system at Bude. ████████████████████ Its a GERONTIC delivery from the NIGELLA access. Traffic is labelled TICKET WINDOW: Sigad DS-300, Pddg NC and case notations ██████████████ The traffic can be viewed in XKS using the GCHQ_INCENSER database. INCENSER dataflow diagram
INMARSAT	**International Maritime Satellite**. Terminals/handsets have 3 values associated with them but only 2 are worth targeting: 1. FTIN/Hex (a 6 figure hex value) 2. Telephone number (a 12-digit number starting 870) 3. Reverse Hex (a 6 figure hex value) not normally targetable as values can change - click here for further info. **10-Apr-12**: Bearers carrying this traffic ██
